TOWN OF HANOVER  
2019 JAN 29 PM 3:42  
TOWN CLERK

Ms. Shoemaker,

I am requesting this email be delivered to the ZBA Chairman Matthew Perkins.

My name is Ryan Kenny and I reside at 167 Hillside Dr. As an executive that runs a multimillion dollar company I cannot express enough for this town to be as progressive as possible.

Please do not submit to a vocal minority. There is precedent after precedent of what happens to towns that do not look to the future. Please don't let that happen to Hanover. Melrose is a great case study!!!

In my opinion the town should move forward with our commercial projects AND raise taxes to provide residents with the desires they want. Dog park!

I'm sure you look at demographic trends similar to the way I do. Boomers 77MM , GenX 55MM, Millennials w/ immigration 77MM. By 2020 millennials will dominate the ten most popular ages in this country. We must look towards the future!!!

Please excuse the brevity of this message it was sent via iPhone.
